

# INAX

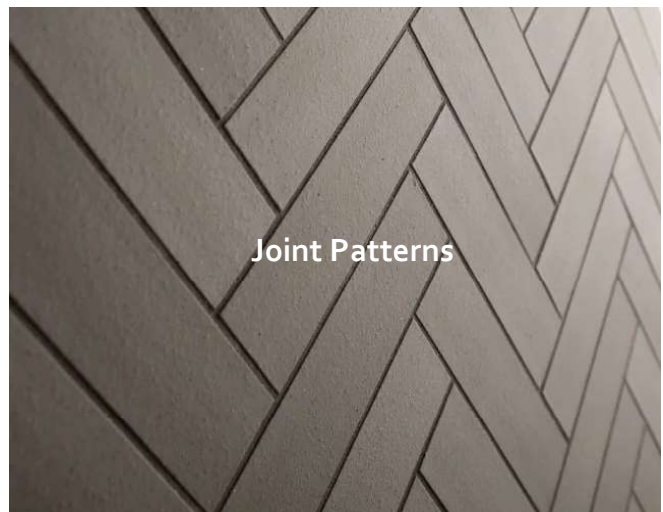

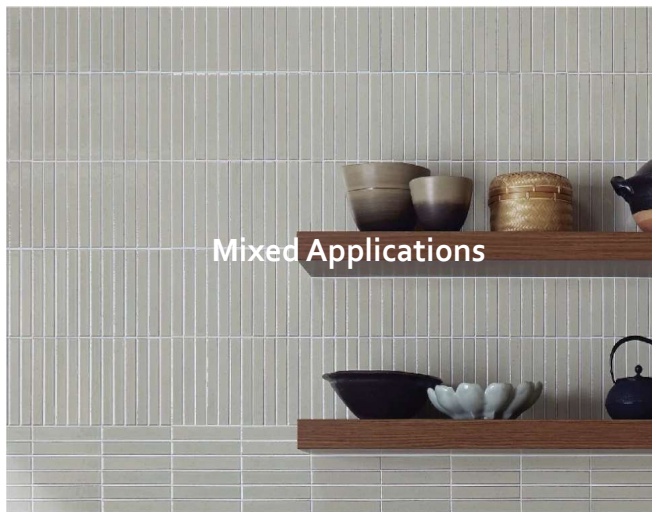

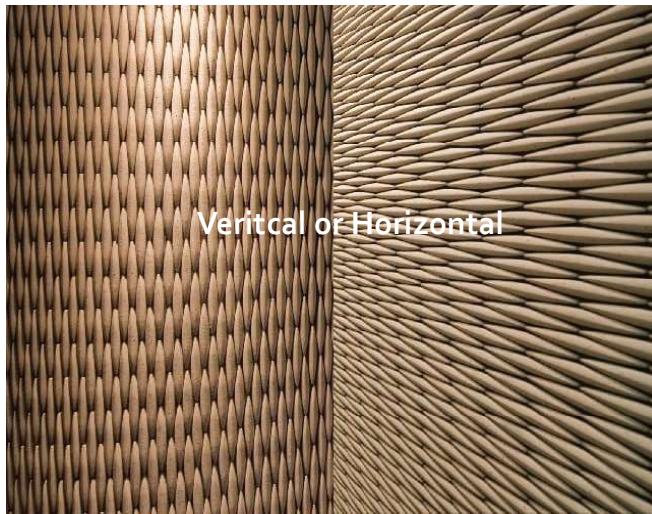

Inspired by nature and Japanese tradition, INAX offers techniques and unfaltering quality creating high-quality spaces that resonate in the hearts of those who behold them. From the Crescent Border inspired by Iraka, roofs of traditional Japanese Houses, to the Yohen Border inspired by the four seasons and Japanese sweets such as Yohkan, INAX's line of tiles will help to take your design to the next level.

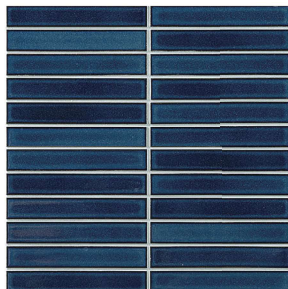

The design possibilities with INAX are abundant. Play with light and shadow, use a contrasting grout color or an interesting pattern, INAX was made to inspire.

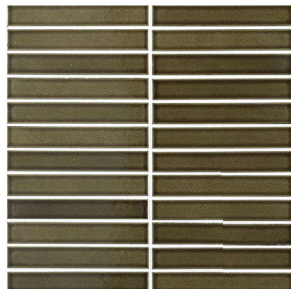

"Design is thinking.... made visual" ~ Saul Bass

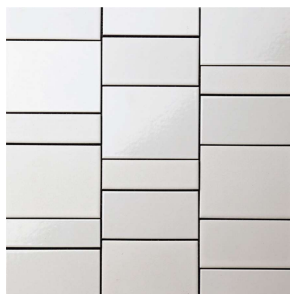

knoxtile, a long admirer of quality porcelain, ceramic and glass tile is proud to be one of the few distributors in the United States carrying INAX. We have been inspired by the history of the company and the creative design of each line. Though we will have access to every INAX tile, we will be stocking the following items in our Dallas Warehouse.
